## • Brochure:

**About Tara Devi Harakh Chand Kankaria Jain College**, popularly known as T.H.K. Jain College, is a self-financed minority college affiliated to C.U. Established in the year 2005 under the auspices of Shree S.S. Jain Sabha, it was awarded B+ accreditation from NAAC in the 1st Cycle of assessment in 2016. The college constantly strives to provide comprehensive and holistic knowledge to the students irrespective of their economic background.

The Department of Commerce started its functioning in the year 2008 to offer B.Com (Hons. & Genl) courses under the University of Calcutta. It also offers a Post-graduation degree course through distance education under Vidyasagar University.

The Department of Economics became functional in the year 2010 to offer Economics as Hons & Genl papers to the students of Science, Commerce and Management. This interdepartmental collaboration has helped in broadening the scope of the Department of Commerce. Over the years, the college has expanded its purview by introducing several degree courses in the streams of Arts and Science as well which has led to a remarkable enhancement in the student strength. Students get access to career-oriented programs like Personality Development, Foreign language courses and Sports training and are encouraged to participate in social outreach initiatives and co-curricular activities like seminars, educational excursions, workshops and exhibitions.

**Conference Theme**  
Various issues like tariff war between China & USA, Brexit in U.K, bank failures, volatile economic situations in several parts of the World changes, in accounting, taxation rules etc., reinstates the importance of innovative thinking to deal with the revolutionary changes. The World today is a global village where small change in one part of the World causes disruption in other parts. Thus it is the need of the hour that faculty members, researchers & students stay informed about the Contemporary Issues which in this age of information will give them the power and strength to come up with reformist ideas.

With the aforementioned ideas in mind the two NAAC accredited undergraduate Colleges of Kolkata, West Bengal viz. Vidyasagar Evening College & T.H.K. Jain College are organizing a One-day National Seminar on "Contemporary Issues in Commerce and Economics" on 11th January, 2020 at T.H.K. Jain College. The seminar is a platform for teachers, researchers, professionals to discuss, deliberate and make presentations on contemporary issues in Commerce & Economics. Through the discussions and the deliberations at this event, we hope to encourage research and sharing of ideas on the central themes and sub-themes.

**About Vidyasagar Evening College:** The journey of Vidyasagar Evening College began when Pandit Ishwar Chandra Vidyasagar became the President of the Managing Committee of the Calcutta Training School in 1858, and subsequently it paved the way for the establishment of Metropolitan Institution in 1860. In 1917 it was renamed Vidyasagar College. Subsequently its academic curriculum expanded with the formal inclusion of the Commerce Department in 1922 and the Morning Section for Women in 1931. The Commerce Department of the College has the distinction of being the first non-Government night college teaching commerce in West Bengal. In 1928 the course was granted affiliation by the University of Calcutta. The evening section emerged as an independent entity with a separate Governing Body in 1961 bearing the name Vidyasagar Evening College [recognized by UGC u/s 2(f) and 12(b)]. With the recent construction of separate buildings for Vidyasagar Evening College and Vidyasagar College for Women (by the acquisition of a plot of land adjacent to the main building of the College), the institution is favourably poised for the fulfillment of quite a few of its plans. Today the College (accredited by NAAC) offers under graduate courses, with Honours in Commerce, Bengali, English, Political Science, Geography, Mathematics, Physics and Physiology.

**ECOLOGICAL RESTORATION - REIMAGINE, RECREATE, RESTORE: DEFORESTATION & IT'S RECOVERY**  
Ahripa Kundu • Sarika Kundu • Sarthak Kundu • Anshul Paul  
Dept. of Microbiology  
T.H.K. Jain College

**Introduction:**  
Deforestation is simple word, means the felling and clearing of forest cover or tree plantations to accommodate agricultural, industrial or urban use. It involves the permanent end of forest cover to make that land available for residential, commercial or industrial purposes.  
Over the last century, the forest cover around the globe has been significantly compromised, leaving the green cover down to an all time low of about 30 percent. According to the United Nations Food and Agriculture Organization (FAO), an estimated 10 million acres (4 million hectares) of forest are lost each year.  
Do you have the courage to stand up against Deforestation?

**Effects on Eco-system:**  
• **Climate Imbalance and Climate Change:** Deforestation also affects the climate in many ways. Forests are the lungs of our planet. Trees take in carbon dioxide and release oxygen and water vapor in the air, and that is why several rainforests are referred to as the lungs of the world.  
• **Increase in Global Warming:** Trees play a major role in controlling global warming. The trees utilize greenhouse gases, reducing the balance in the atmosphere. With constant deforestation, the ratio of greenhouse gases in the atmosphere has increased, adding to our global warming woes.  
• **Soil Erosion:** Without trees, erosion often occurs and sweeps the soil into rivers, streams and oceans. Forests serve as nature's water purification plants. Soil erosion makes soil exposed to contaminants that reach into the water supply, which damages the quality of our drinking water.  
• **Floods:** When it rains, trees absorb and store a large amount of water with the help of their roots. When they are cut down, the flow of water is disrupted, and the soil loses its ability to retain water. It leads to floods in some areas and droughts in others.  
• **Increase in Greenhouse Gas Emissions:** Forests help to regulate carbon dioxide and other heat-trapping greenhouse gases. However, once they're cut down, or otherwise removed, they become carbon sources.  
• **Acidic Oceans:** The increased levels of carbon dioxide in the atmosphere due to deforestation and burning fossil fuels make the oceans more acidic. Some of the biological functions, functions are already 30 percent more acidic, posing a threat to species and ecosystems at an alarming rate.

**Recovery:**  
• **Reforestation and Afforestation:** Last thing of the forest cover for urban settlements should be reforested in plantations in the vicinity and replace the lost trees. Also, the cutting must be regulated by planting young trees to replace the older ones that were cut.  
• **Government Regulations:** The best solution to deforestation is to curb the felling of trees by enforcing a series of rules and laws to govern it. Deforestation in the current scenario may have induced. However, it would be too early to assume.

**Reasons/Causes:**  
• Human activities as agricultural expansion, cattle breeding, timber extraction, mining, oil extraction and dam construction.  
• Natural causes as hurricanes, fires, parasites and floods.  
• Insufficient political action and government failure to implement land tenure system, corruption among public administration, investment.

**Conclusion:**  
Forest is the backbone of our society as well as nature and a lifeline to the economy. We can't neglect the need for the forest, but in case of putting a tree, we can't let it be planted.

in collaboration with  
**Dept. of Journalism & Mass Communication**

**Women & Visual Media**

27.03.2023 ★ 12 PM ★ AV 2

**International Women's Day**

Every year, March 8 is celebrated as International Women's Day. It is a global day for celebrating the social, economic, cultural and political achievements of women. It is also a focal point in the women's rights movement, bringing attention to issues such as gender equality, reproductive rights, and violence and abuse against women. In several countries across the world, March is celebrated Women's Month or Women's History Month. It is a month-long celebration to recognize and acknowledge women in all appearances, contributions, roles, and perspectives.

This lecture session would explore the changing terrains of women's representation in visual media; investigate the rhetoric and the politics behind such representation; and contemplate the relevance of such discourses in contemporary times.

**Speakers**

**Dr. Nandita Banerjee**  
Associate Professor  
Dept. of History
